

Do you live in an older building that wastes energy to heat or cool your home?

Do you live with mold? Lead? Asbestos?

Do you spend too much \$\$ on utility bills?

WHAT IS EEEJA AND HOW CAN IT HELP?

The Energy Efficiency Equity and Jobs Act (EEEJA) will make sure that low income communities get a fair share of weatherization funding from New York State. EEEJA will:

LOWER ENERGY BILLS

EEEJA will provide funding to make homes more energy efficient. More energy efficient homes means cheaper utility bills

MAKE HOMES HEALTHIER

EEEJA will allow the state to use energy efficiency funding to remove mold, lead and asbestos from housing - underlying conditions that typically prevent homes from receiving energy efficiency upgrades

Low and moderate income New Yorkers make up almost **HALF** of New York and contribute **BILLIONS** of dollars for energy, but are often left out of energy upgrade funding programs. Its time to **RECLAIM** our dollars.

LET'S MAKE EEEJA LAW IN NEW YORK STATE!

EEEJA TEACH-IN

Thursday, February 24th
6PM - 7PM

Learn more about the bill and its impact on your community as well as our grassroots campaign to make it law.
